

# DAMIEN LUZZO

**LOCATION:** Austin, TX 78748 | **PHONE:** 916-337-8786 | **EMAIL:** [damienluzzo33@gmail.com](mailto:damienluzzo33@gmail.com)  
**LINKEDIN:** <https://www.linkedin.com/in/damienluzzo/> | **GITHUB:** <https://github.com/damienluzzo33>

## INTRODUCTION

Creative, tech-savvy, and detail-oriented UC Santa Barbara graduate with Bachelors' degrees in both Physics and Philosophy and a passion for software engineering. Excellent problem solving, teamwork, and communication skills with the ability to work under pressure and meet aggressive deadlines in a fast-paced environment. Eager to begin a new career in software engineering and further develop my programming skills and computer science knowledge.

## SKILLS

**TECHNICAL:** JavaScript, Python, Git, GitHub, MongoDB, Node.js, Express.js, Linux / Bash, MySQL, HTML5, CSS3, PostgreSQL, Bootstrap, Materialize, React, WordPress, Visual Studio, Google Suite, API's, JSON, jQuery, Heroku, Handlebars

**DEVELOPER / HARD:** Version Control, Debugging, Object-Oriented Programming (OOP), UX/UI Design, Optimization, Unit Testing, Algorithms, Troubleshooting, Data Structures, Database Management, Data Analysis, Statistics, Advanced Mathematics, Business Acumen, Research, Problem-Solving, Project Management, Agile Development Principles, Scrum

**SOCIAL / SOFT:** Innovative, Imaginative, Versatile, Creative, Well-Organized, Proactive, Articulate, Accountable, Collaborative, Emotionally Intelligent, Empathetic, Relationship Builder, Active Listener, Excellent Communication Skills, Honest, Transparent, Open to Feedback, Able to Resolve Conflicts, Teaching/Mentoring

## EDUCATION

**UNIVERSITY OF TEXAS, AUSTIN - FULL-STACK PROGRAMMING PROFESSIONAL CERTIFICATE**

**UNIVERSITY OF CALIFORNIA, SANTA BARBARA** Physics B.S. & Philosophy B.A.

**ONLINE BOOTCAMPS** Web Development; Python; React.js; MySQL; Git and GitHub; UI/UX for AR/VR;

**UDEMY** Algorithms and Data Structures; SQL for Data Science; Postgresql and Relational Databases;

## PROJECTS

**Grouper App** | Allows Austin-based users to create and attend events to hang out with friends and to make new ones. User's RSVPs and create events are sustained and saved to a MySQL database.

- Core Responsibilities: Project Manager, Creating Express Routes, Javascript, Handlebars
- Toos & Technology: Handlebars, Express.js, Javascript, CSS, Bcrypt, Node, Materialize, Sequelize

**Dynamite Recipes!** | An easy-to-use application that presents users with suggested recipes that they can cook or prepare based on the food ingredients that the user provides. User-selected ingredients are saved so their ingredients are sustained.

- Core Responsibilities: Project Manager, UX/UI, Creating API Calls, Javascript
- Tools & Technology: HTML5, CSS, Javascript, Materialize, Spoonacular API, Material Icons

**React Color Palette Picker** | An elegant color palette application that allows users to create their own color palettes or utilize up to nine provided palettes. When the user creates a palette, their created palettes are saved for future app usage.

- Core Responsibilities: This project was done individually, so I was responsible for everything
- Tools & Technology: React.js, Javascript, Material UI, Chroma.js, React Router

## RELEVANT WORK EXPERIENCE

**LIVE FROM THE FRONTLINES** Director, Producer | Los Angeles, CA | June 2018 - Jan 2021

- ❖ Video-editing software (Premiere, Resolve), web development, UX/UI design, and data analytics.

**ROOTSKEEPER** Campaign Manager | Los Angeles, CA | Nov 2016 - Oct 2018

- ❖ Maintained four websites for the organization and their campaigns, managed CRM, form creation, and bulk emails

**SAVEWITHSUNLIGHT** President | Davis, CA | March 2012 - Jan 2017

- ❖ 3D modeling software, website development, and financial modeling.
